BOARD OF MEDICAL QUALITY ASSURANCE  
DEPARTMENT OF CONSUMER AFFAIRS  
STATE OF CALIFORNIA

In the Matter of the  
Accusation Against:

Rudi Unterthiner, M.D.  
Certificate # A-23118

Respondent.

No. D-3262

DECISION

The attached Stipulation is hereby adopted by the  
Division of Medical Quality of the Board of Medical Quality  
Assurance as its Decision in the above-entitled matter.

This Decision shall become effective on \_\_\_\_\_  
February 29, 1988.

IT IS SO ORDERED January 29, 1988.

DIVISION OF MEDICAL QUALITY  
BOARD OF MEDICAL QUALITY ASSURANCE

\_\_\_\_\_  
THERESA CLAASSEN, Secretary-Treasurer

20  
21 IT IS HEREBY STIPULATED as follows:  
22

23 1. Complainant Kenneth J. Wagstaff is represented by  
24 John K. Van de Kamp, Attorney General, and Alvin J. Korobkin,  
25 Deputy Attorney General. Respondent, Rudi A. Unterthiner,  
26 M.D., is represented by Lewin and Levin, by Henry Lewin,  
27 Esquire.

28 2. Respondent has received and read the Accusation and

1 the First Amended and Supplemental Accusation on file in this  
2 matter, and fully understands the nature of the charges  
3 alleged against him.

4 3. Respondent is fully aware of his right to a hearing  
5 on the charges against him, his rights to reconsideration,  
6 appeal, and all other rights which may be accorded to him  
7 pursuant to the Administrative Procedure Act. Respondent  
8 freely and voluntarily waives such rights.

9 4. Respondent admits each and every allegation  
10 contained in the Accusation and First Amended and  
11 Supplemental Accusation, except the allegations contained in  
12 paragraphs 6(a) and 8 of the First Amended and Supplemental  
13 Accusation which are withdrawn.

14 5. The above waiver and admissions are made for the  
15 purposes of this stipulation only, and for no other  
16 proceedings. In the event this stipulation is not accepted  
17 and adopted by the Division of Medical Quality, said waiver  
18 and admissions are null and void and inadmissible in any  
19 future proceedings between the parties.

20 6. The Division of Medical Quality shall issue an  
21 order which provides as follows:

22 Physician and Surgeon's Certificate No. A023118  
23 issued to respondent Rudi A. Unterthiner, M.D., shall be  
24 revoked. However, revocation is stayed and respondent is  
25 placed on probation for five years upon the following terms  
26 and conditions:

27 (1) Within 60 days of the effective date of this  
28 decision, respondent shall take and pass an oral

1 clinical examination in plastic surgery, to be  
2 administered by the Division or its designee. If  
3 respondent fails this examination, respondent must take  
4 and pass a re-examination consisting of a written as  
5 well as an oral clinical examination. The waiting  
6 period between repeat examinations shall be at three  
7 month intervals until success is achieved. The Division  
8 shall pay the cost of the first examination and  
9 respondent shall pay the cost of any subsequent re-  
10 examinations. Respondent shall not practice medicine  
11 until respondent has passed the required examination and  
12 has been so notified by the Division in writing.

13 (2) Within 90 days of the effective date of this  
14 decision, and on an annual basis thereafter, respondent  
15 shall submit to the Division for its prior approval an  
16 education program or course related to plastic surgery,  
17 which shall not be less than 40 hours per year, for  
18 each year of probation. This program shall be in  
19 addition to the Continuing Medical Education  
20 requirements for re-licensure. Following completion of  
21 each course, the Division or its designee may administer  
22 an examination to test respondent's knowledge of the  
23 course. Respondent shall provide proof of attendance  
24 for 65 hours of continuing medical education of which 40  
25 hours were in satisfaction of this condition and were  
26 approved in advance by the Division.

27 (3) In addition to the requirements of condition  
28 (2) above, respondent shall take and complete a course

1 in Medical Ethics. Within 60 days of the effective date  
2 of this decision, respondent shall select and submit a  
3 course to the Division for its prior approval.

4 (4) Respondent shall obey all federal, state and  
5 local laws, and all rules governing the practice of  
6 medicine in California.

7 (5) Respondent shall submit quarterly declarations  
8 under penalty of perjury on forms provided by the  
9 Division, stating whether there has been compliance with  
10 all the conditions of probation.

11 (6) Respondent shall comply with the Division's  
12 probation surveillance program.

13 (7) Respondent shall appear in person for  
14 interviews with the Division's medical consultant upon  
15 request at various intervals and with reasonable  
16 notice.

17 (8) The period of probation shall not run during  
18 the time respondent is residing or practicing outside  
19 the jurisdiction of California. If, during probation,  
20 respondent moves out of the jurisdiction of California  
21 to reside or practice elsewhere, respondent is required  
22 to immediately notify the Division in writing of the  
23 date of departure, and the date of return, if any.

24 (9) Upon successful completion of probation,  
25 respondent's certificate will be fully restored.

26 (10) If respondent violates probation in any  
27 respect, the Division, after giving respondent notice  
28 and the opportunity to be heard, may revoke probation

1 and carry out the disciplinary order that was stayed.  
2 If an accusation or petition to revoke probation is  
3 filed against respondent during probation, the Division  
4 shall have continuing jurisdiction until the matter is  
5 final, and the period of probation shall be extended  
6 until the matter is final.

19  
20 KENNETH J. WAGSTAFF alleges:

21 1. He is the Executive Director of the Board of  
22 Medical Quality Assurance and makes this accusation in his  
23 official capacity.

24 2. At all times mentioned herein respondent Rudi A.  
25 Unterthiner, M.D., was licensed by the board under Physician and  
26 Surgeon Certificate No. A023118. Said certificate is currently  
27 in full force and effect.

1           3. Sections 2227 and 2234 of the Business and  
2 Professions Code provide that a certificate may be suspended or  
3 revoked if the holder is guilty of unprofessional conduct.  
4 Section 2234(a) provides that violating any provision of the  
5 Medical Practice Act constitutes unprofessional conduct.

6           4. Section 2234(e) of the Business and Professions  
7 Code provides that the commission of any act involving  
8 dishonesty or corruption which is substantially related to the  
9 qualifications, functions or duties of a physician and surgeon  
10 constitutes unprofessional conduct.

11           5. Respondent is subject to disciplinary action  
12 pursuant to section 2234(e) of the code in that respondent is  
13 guilty of acts of dishonesty which are substantially related to  
14 his qualifications, functions or duties as a physician and  
15 surgeon, as follows:

16           A. Respondent filed an application for medical staff  
17 membership and clinical privileges with Desert Hospital on or  
18 about June 21, 1976. The application for membership stated that  
19 any significant misstatements or omissions constitute cause for  
20 denial of appointment. Respondent gave untruthful answers on  
21 his application and before an hoc committee of the hospital.

22           B. Question 6 on the application for medical staff  
23 membership concerns affiliations and requests the applicant to  
24 list all current and previous hospital affiliations. Respondent  
25 failed to list Palmdale Community Hospital. Respondent had had  
26 conflicts with the chief of staff of Palmdale Community Hospital.  
27 The situation deteriorated to the point where respondent tore up

1 letters from the chief of staff without reading them. Due to  
2 chart problems, respondent's privileges were suspended at the  
3 hospital. Respondent orally resigned from the hospital.

4 C. Question 16 on the application asks whether the  
5 applicant's privileges at any hospital had ever been suspended,  
6 diminished, revoked or not renewed and whether the applicant had  
7 ever been denied membership or renewal thereof or been subject  
8 to disciplinary action in any medical organization. Respondent  
9 answered the question in the negative, despite having been  
10 denied staff privileges at two hospitals in Santa Barbara.

11 D. At an ad hoc committee hearing, respondent was  
12 asked whether he had any problems or clashes with individuals in  
13 the Lancaster-Palmdale area. Respondent stated that he did not  
14 have any specific problems. He failed to mention his problems  
15 at Palmdale Community Hospital, which he later admitted and  
16 testified to before a hearing officer. Respondent also failed  
17 to mention that he had resigned from Antelope Valley Hospital at  
18 a time when disciplinary proceedings had been initiated.

19 6. After various administrative hearings concerning  
20 the above and other matters pertinent to respondent's  
21 application for staff membership, the denial of his application  
22 was recommended successively by the credentials committee, the  
23 executive committee, the ad hoc committee, and a hearing officer  
24 appointed by the hospital's board of directors. The board  
25 adopted the hearing officer's recommendation.

26 The hearing officer determined that respondent was  
27 untruthful in the preparation and filing of his application for

1 staff membership, that he was untruthful in his testimony during  
2 the hearing, and that he failed to satisfy ethical standards.

3 Respondent filed a petition for writ of mandate to  
4 compel the hospital district to set aside its order denying him  
5 admission to its medical staff. The superior court of Riverside  
6 County granted the petition and the hospital district appealed.

7 On appeal, the California Supreme Court in  
8 Unterthiner v. Desert Hospital District of Palm Springs (1983)  
9 33 Cal.3d 285, reversed the trial court's decision. The Supreme  
10 Court held that the basis of the district's decision was false  
11 statements in respondent's application and in his testimony as  
12 to lack of problems in the Palmdale-Lancaster area, and that the  
13 basic findings of falsehood were supported by undisputed  
14 evidence and were not adequately explained.

15 7. Respondent is further subject to disciplinary  
16 action pursuant to section 2234(e) of the Business and  
17 Professions Code, as follows:

18 A. In the case referred to in paragraph 6 above,  
19 there was other undisputed evidence showing a lack of veracity  
20 in relation to hospital activities.

21 B. Respondent did not deny that at Antelope Valley  
22 Hospital in 1976 he left in the midst of surgery when he was  
23 proctoring a doctor having only temporary privileges, that he  
24 reported that he proctored the surgery and that he completed the  
25 post-operative evaluation before the patient left the operating  
26 room.

27 /

1 C. Nor did respondent claim that in Santa Barbara in  
2 1968-1970, where he repeatedly failed to appear for scheduled  
3 surgery or appeared tardily due to his admitted moonlighting at  
4 a Los Angeles hospital, contrary to hospital rules, that he  
5 advised his mentors or associates of the true reasons for his  
6 failure to perform his assigned duties.

7 WHEREFORE, complainant prays that the Division of  
8 Medical Quality hold a hearing on the allegations contained  
9 herein, and following said hearing, take such action as provided  
10 by section 2227 and 2234 of the Business and Professions Code,  
11 or take such other and further action as may be proper.

---

19  
20 Complainant, Kenneth J. Wagstaff, alleges:

- 21 1. Complainant repleads and realleges each and every  
22 allegation contained in the original Accusation.  
23 2. Section 2234(b) of the Business and Professions  
24 Code provides that unprofessional conduct includes gross  
25 negligence.  
26 3. Section 2234(d) of the Business and Professions  
27 Code provides that unprofessional conduct includes incompetence.

1           4. Section 2261 of the Business and Professions Code  
2 provides that knowingly making or signing any certificate or  
3 other document directly or indirectly related to the practice of  
4 medicine or podiatry which falsely represents the existence or  
5 nonexistence of a state of facts, constitutes unprofessional  
6 conduct.

7           5. Section 726 of the Business and Professions Code  
8 provides that the commission of any act of sexual abuse,  
9 misconduct or relations with a patient, client or customer which  
10 is substantially related to the qualifications, functions or  
11 duties of the occupation for which a license was issued  
12 constitutes unprofessional conduct and grounds for disciplinary  
13 action.

14           6. Respondent is subject to disciplinary action  
15 pursuant to section 2234(b) of the Business and Professions Code  
16 in that respondent is guilty of gross negligence, as follows:

17           A. Patient Barbara J.

18           On or about June 1, 1983, respondent performed a  
19 facelift and upper eye lid surgery upon patient Barbara J.  
20 Discoloration was present on the left and right side of the  
21 patient's face postoperatively on June 1, June 2, June 4, and  
22 June 6. Respondent then left the country. Respondent is guilty  
23 of gross negligence in that he failed to arrange for another  
24 plastic surgeon to be available to provide postoperative care  
25 for the patient during his absence. The patient suffered  
26 complications and emotional distress during the respondent's  
27 absence.

1           B. Patient Shirley N.

2           On or about April 6, 1983, respondent performed a  
3 facelift and upper eye lid surgery upon patient Shirley N. The  
4 patient suffered excessive scarring and disfigurement on the  
5 left side of her face and neck. Respondent is guilty of gross  
6 negligence in that:

7           (1) Respondent failed to perform a forehead  
8 lift, which she was promised and which she paid for.

9           (2) Respondent failed to properly control the  
10 bleeding which occurred in the patient's left cheek  
11 area, and failed to properly evacuate the hematoma  
12 which subsequently formed in the patient's left  
13 cheek area. As a result, the patient developed  
14 excessive scarring which extended on to the cheek  
15 and neck skin in areas where there is customarily  
16 no visible scar, and she was left with disfigure-  
17 ment of the left side of the face.

18           (3) Respondent failed to maintain adequate  
19 and reliable medical records detailing the patient's  
20 postoperative condition.

21           (4) On or about June 1983, respondent left the  
22 country without arranging for another plastic  
23 surgeon to be available to provide postoperative  
24 care for this patient during his absence.

25           C. Patient John Q.

26           On or about December 14, 1983, respondent performed  
27 limited facelift surgery upon patient John Q. Almost

1 immediately, the patient experienced excessive bleeding,  
2 resulting in swelling and discoloration which lasted for several  
3 days. On December 28, 1983, the patient was admitted to a  
4 hospital suffering from bleeding, congestive heart failure,  
5 staph infection and necrotic skin flaps. Respondent is guilty  
6 of gross negligence in that:

7 (1) Respondent failed to allow sufficient time  
8 prior to surgery for the patient to receive treatment  
9 with an antibacterial detergent.

10 (2) Respondent failed to allow sufficient time  
11 prior to the surgery for the patient, who was 82 years  
12 old and a high risk patient, to reflect on the wisdom  
13 of going forward with the surgery. Respondent first  
14 saw the patient on December 13, 1983, one day prior  
15 to the surgery.

16 (3) Respondent failed to properly obtain  
17 hemostasis during or after the surgery.

18 (4) Respondent failed to properly monitor the  
19 patient's bleeding following surgery, failed to  
20 have any blood studies performed, and failed to  
21 return the patient to the operating room to remove  
22 the blood and obtain hemostasis.

23 (5) Respondent failed to properly control the  
24 bleeding which occurred in the patient's left side  
25 of the face, and failed to properly evacuate the  
26 hemotoma which subsequently formed. As a result,  
27 the patient experienced necrosis of the skin flaps.

1 (6) Respondent failed to recognize that the  
2 patient developed congestive heart failure sub-  
3 sequent to the surgery.

4 (7) Respondent failed to prescribe optimal  
5 dosage of an appropriate antibiotic for the patient's  
6 staphylococcal infection.

7 (8) Respondent failed to document in his  
8 medical records that the patient suffered from  
9 excessive postoperative bleeding, accumulated  
10 substantial fluid below the skin flap, and  
11 experienced necrosis of the skin flaps.

12 (9) Respondent failed to maintain a beeper  
13 where he could be reached if necessary.

14 D. Patient Mary C.

15 On or about August 30, 1976, respondent performed  
16 facelift and upper eye lid surgery upon patient Mary C. A  
17 postoperative hematoma developed which led to necrosis of the  
18 underlying skin, tissue slough and a hypertrophic scar and  
19 contracture beginning at the left ear lobe and extending along  
20 the posterior border of the mandible and down into the neck.  
21 Respondent is guilty of gross negligence in that:

22 (1) Respondent failed to observe the patient  
23 for approximately 72 hours following the surgery,  
24 during which time the complications had already  
25 begun to develop. Said complications would have  
26 been visible and apparent to respondent had he  
27 observed the patient during this time period.

1 The evening following surgery the patient told  
2 respondent on the telephone she was experiencing  
3 pain and pressure on the left side of her face.

4 (2) When respondent finally did see the  
5 patient postoperatively on September 2, 1976,  
6 respondent failed to properly diagnose the  
7 complications from the facelift surgery and  
8 failed to take appropriate action to treat those  
9 complications.

10 (3) Respondent failed to document in his  
11 medical records the complications which developed  
12 from the facelift surgery

13 (4) Respondent's management and treatment  
14 of this patient reflects a lack of knowledge and  
15 ability in routine postoperative facelift care and  
16 an inability to recognize and deal with complica-  
17 tions from facelift surgery.

18 E. Patient Verbena A.

19 On or about September 24, 1976, respondent performed a  
20 facelift and eye lid surgery upon patient Verbena A.  
21 Postoperative complications developed which resulted in  
22 prominent left facial scarring and cheek tissue slough.  
23 Respondent is guilty of gross negligence in that:

24 (1) Respondent failed to document in his medical  
25 records the complications which developed, the cause  
26 of those complications, or the respondent's plan  
27 for treating the complications.

1           (2) Respondent failed to recognize or treat  
2       the patient's postoperative complications from the  
3       facelift.

4           7. By reason of the matters alleged in paragraph 6A  
5       through 6E inclusive, respondent is guilty of incompetence and  
6       subject to disciplinary action pursuant to Business and  
7       Professions Code section 2234(d).

8           8. Respondent is subject to disciplinary action  
9       pursuant to section 726 of the Business and Professions Code in  
10      that he is guilty of an act of sexual abuse, misconduct or  
11      relations with a patient which is substantially related to the  
12      qualifications, functions or duties of the practice of medicine,  
13      as follows:

14           At the conclusion of the surgery performed on patient  
15      Shirley N. referred to in paragraph 6B above, respondent  
16      manipulated patient Shirley N.'s vaginal area with his finger or  
17      fingers.

18           9. Respondent is subject to disciplinary action  
19      pursuant to section 2261 of the Business and Professions Code in  
20      that respondent is guilty of knowingly making or signing  
21      documents related to the practice of medicine which falsely  
22      represent the existence or nonexistence of a state of facts, as  
23      follows:

24           Patient Shirley N.

25           Respondent falsified his medical records for patient  
26      Shirley N. in order to conceal the true nature of the  
27      complications from her surgery. During the period of time after

1 surgery that the hematoma had developed and would have been  
2 plainly visible, respondent was omitting any reference to the  
3 problem in the patient's medical records; instead, respondent  
4 was making entries such as "no problems" and "looks ok."  
5 Respondent later attempted to falsely blame the complications on  
6 undue pressure due to sleeping on the left side.

7           Patient John Q.

8           Respondent falsified his medical records for John Q. in  
9 order to conceal the true nature of the complications from his  
10 surgery. While postoperative complications on December 14,  
11 1983, resulted in excessive bleeding and efforts to control the  
12 patient's bleeding, respondent was omitting any reference to the  
13 problem in the patient's medical records; instead, respondent  
14 indicated in said records that all went well with "no problems."  
15 In addition, respondent made an entry on December 28, 1983, that  
16 the patient was "healing well;" in truth and in fact, the  
17 patient was suffering from considerable swelling, which is  
18 reflected in his hemoglobin dropping from 14.4 gms prior to  
19 surgery to 8.9 gms two weeks later. These medical records  
20 reflect a pattern of obfuscation and denial on the part of the  
21 respondent. The inaccuracy of those medical records was of such  
22 a degree as to make those records almost useless as a reliable  
23 indicator of the patient's condition.

24           Patient Mary C.

25           Respondent falsified his medical records for Mary C. in  
26 order to conceal the true nature of the complications from her  
27 surgery. During the period of time after surgery that

1 respondent was aspirating the hematoma which had developed and  
2 prescribing antibiotics to fight possible infection, he was  
3 omitting any reference to the problem in the patient's medical  
4 records; instead, respondent was making entires such a "healing  
5 very well" and "no problem at all" in those medical records.  
6 Respondent later attempted to falsely blame the patient's tissue  
7 loss and subsequent scar on an ear infection spilling infectious  
8 material onto the patient's face.

9 Patient Verbena A.

10 Respondent falsified his medical records for Verbena A.  
11 in order to conceal the true nature of the complications from  
12 her surgery. Respondent omitted any reference to the true  
13 causes of those complications. Respondent later attempted to  
14 falsely blame the patient's scarring and tissue loss on an  
15 infection caused by food spoilage through intact skin.

16 WHEREFORE, Complainant prays that the Division of  
17 Medical Quality hold a hearing on the allegations contained in  
18 the original Accusation and the First Amended and Supplemental  
19 Accusation and, following said hearing, take such action as  
20 provided by sections 2227 and 2234 of the Business and  
21 Professions Code, or take such other and further action as may  
22 be proper.
